

Laparoscopic Diathermy Hooks

PTFE insulation for safe, precision electrosurgery.

Fairmont Medical's laparoscopic diathermy hooks offer a practical, cost-effective solution for minimally invasive surgery. These disposable sterile 5mm insulated right angle hooks feature advanced PTFE polyolefin insulation coating, ensuring safe electrosurgical performance while maintaining optimal safety standards for patients and surgical teams.

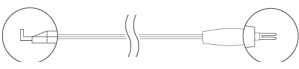

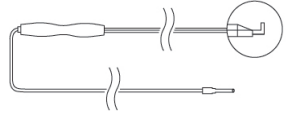

Switch Control Right Angle Hook

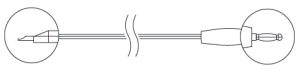

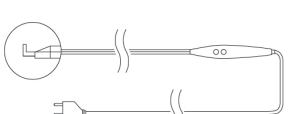

- Finger switch control avoids the use of awkward foot pedals
- Comfortable ergonomic handle design
- Easy to identify cut and coagulate colour coded buttons
- Safe reinforced 3 pin plug
- Convenient drapeable 3 metre cable
- Single use, sterile, ready to use
- Australian designed quality

Standard Right Angle Hook

- Comfortable ergonomic handle design
- Variety of tip selections
- Offered with or without cable attachment
- Drapeable cable design on offer
- Ready to use, sterile single use
- Australian designed quality
